HONGEO' O, FRIDAY, JUNE .23, 1893,

CHINA COAST HARBOUR MARKS.

not a single harbour entracce that can compare | hundred miles. with the firstinamed port for difficulty of entrance, especially at night. In fact it would IT is notified that in future the Battery Orders of in the world very much worse. Leaving will be published every Saturday in the three Canton after dark is bad e ough at all times ; what with the four barriers all more or less of native craft, and other obstructions-on a dark, rainy night the Canton River is as risky a pisce as captains or pilots know. But when coming down a steamer has always a light draft, and in most cases can anchor anywhere until dayligh whereas a vestel bound up river may perhaps be drawing every inch of the water on Honam Spli; and as ships are not allowed to lighten in the siver cliber above or below Whan pos, if they are use le to get up on a night | tide it may happen that they may lose the whole of the springs and be compelled to discharge cargo at Whampos. Then, on arrival at Shameen, a will play the following programme at the Barrack steamer is in a bad plight, unless it happens. that she has ber own buor to go to ; if dependent on the gentlemen of the Customs' night service for her neithing, she may as likely as not find her a fat the tender mercies of some knowmothing who has joined the Bervice because he has been ture d out everywhere else as incompetenti In such cases, captains or pilots are falo

to tie their vessels up anywhere where they will "A FRIEND in need is a friend indeed "; but a first, and patiently wait for 6 s.m. and the friend who is not in need is a more desirable from there is sent daily to some second class advent of an intelligent Customs officer.

It is more than pleasant to get away from Canton to a place like Swatow, which is the next | DUNN : "When can you wettle this account, Mr port on the list. In Swatow there are four, lights, four buoys, and a beacon, and there is practically no difficulty in leaving at night, assuming that the skipper has had a little experience of the harbour.

Amoy is without exception the best-lighted, best-buoyed, and best-besconed harbour in

Foochow, with its two lights, eleven buoys, and four bescons, possesses all that is necessary for safe navigation; and in case the natural dangers of the Min river, render a ship-master dou'tful about leaving at night, there is a most efficient pilot service available.

the absence of qualified pllots, the small trade to a cooking formula, "recipes" being applied being hardly worth even a Chinaman's while to to a physician's prescription. work in that capacity. This is rather awkward for a stranger whose charter may take him into these difficult waters, he being compelled to accept the services of any coolle or fisher. man, who may no doubt be expert enough at working his own small craft, but is utterly ignorant as to handling a steamer, alone a sailing vessel of European size and

the placing of three buoys-two red and one ing the Zuyder Zee, whereby it is hoped to black-leading up the North Channel from rescue for cultivation a territory almost as exten-White Rock to Wenchow Point; or perhaps it sive as the Duchy of Hennewick. It has been would be even better to puts red buoy off Hutsu | estimated that the undertaking will cost about Point, leading scross in the best water for mid- \$100,000,000. channel; then a frieway buoy about the spot marked "View B.," after passing which a wessel THE new appointments on the Sanitary Board should have a black buoy to steer for, so as to were misstated in our issue of yesterday through lead up mid-stream between Wenchow Point the accidental emission of a line. Mr. A. and Tent Point. Another red buoy over the Thomson is appointed a member of the Board. extreme S. E. point of the shoal oft Snipe Island and Mr. F. H. May (captain superintendent of would be of great advantage. Past this the river | police) vice president. is well marked with bescons right up to the anchorage, off the city. These improvements would not be expensive, and would enable a shipmaster to go along with more confidence in his fisherman-pliat, knowing he could check his course by the marks.

At Ningoo there are good lights capital buoys. excellent beacons and thoroughly reliable pilots. Shanghal, as the central port of this wast empire, is adequately looked after by the Coast Inspector of the Imperial Maritime Customs THE Batavia Nieuwsbiad publishes a telegram. and his able staff, to whose energy in dated Me an 13th instant, stating that, on the buoying the North Channel last year, and add- | 9th instant, the Achinese muidered five Chinese ing a bell-buoy north of Gutslaff this apring, coolies on the Bukit Mas estate belonging to the mariners are greatly indebted. The whole run Langkat Bestan Tobacco Company. The commarked in every way; besides which there is a under the management of Mr. J. A Lind, firs'-class pilot staff.

Coming to Chefoo, at first sight the pest seems AT 4 o'cleck this afternoon a fine and powerful to call for no comment at all, as being a simple | new tug-boat, constructed by the Hongkong an olfot nor buoy: but the anchorage does not hold equally well, all over, and many Improvements can be suggested. It is not Dock Co.), and several interested parties on so long since the steamer Marie came to crief light on the beach, with the loss Dragons, of many lives. In the first place, the old light, now worm out and obsolete, should be at once replaced by a modern flash-light, with a red or green section showing half a mile clear of the French S. it, and another coloured part marking a mile clear of South East Island. Ferhaps that is a lot to ask all at once, but at least the end of the French Spit could be indicated by a buoy or

In the north-west comer of the Pe-chi-li Gulf is the port of Tientsin, teached via Taku bar and the Pri-ho river. This bar is far away the worst and most shifty and upreliable one in the whole of China. The former channel closed up entirely a very few years ago, a new one (in use at present) forming about three miles to the north. Thanks, however, to the local pilots, who had been carefully watching the change, there was never any interruption of traffic and soon the new channel was found better than the old one. The Customs barbour-master gave valuable assistance in getting the new channel surveyed and doing everything else within his power to a navigation. The system of night signals at Taku is most praise-worthy, not only for guiding vessels over the best water, but also for indicating the depth; and we may add, en passant, that the Woosung bar system in the Shanghai river is equally good. No vessel therefore need lose a tide if she draws little enough to ever get up

out of the twelve, from the middle of November | by a calculation made by Professor Rouge and to the beginning of April, when the lightship | published in a German paper. He says that the This taking away of the light-ship is a sort of our money, which seems a very moderate sum of official closing which might probably be for the equipment of three vessels, small as they amended with advantage, but that is not the were. Columbus, however, was paid as Admiral worst. The bar is practically closed to vessels only at the rate of \$320 a year; his Captains every night, for although there are plenty of received only \$ 6 a month, and sellors from \$2 buoys and beacons for day service, no provision | to \$2 50. Other expenses, of course, were in whatever has been made for night work over proportion. the bar or up and down the ri er. An imprivement in this direction is worth considering; a IN the Supreme Court-house this afternoon the few changes to meet all requirements could easily and advantageously be carried out and would be greatly appreclated.

LOCAL AND GENERAL.

AT Silchar, India, on the 29th ulto. IE.45 inches of rain fell in 12 hours.

hotels and other public institutions. One can easily imagine the quality of milk produced and sold, especially when the milk is adulterated with water which is contsined in coverless barrels placed close to the cattle or in

the kitchen. Thanks are due to the Colonial Veterinary Surgeon and his subordinates, the Inspectors of Nulsances, for abating a great deal of the abominations of these dairies, but they have other duties to perform and cannot be always on the spot; besides, their hands are tied on account of the insufficiency of the scope of the Ordinances relating to Cattle Housing, Cattle Diseases, Drainage, &c.

I am Sir, Yours faithfully. "AN OBSERVER."

Hongkong, 23rd June, 1893.

Now that there are experienced men conducting dairy business on thoroughly unexceptionable principles, as may be noted in another part of this issue, the public have the remedy in their own hands; the unhygienic establishments will soon die a natural death from want of trade.-Ed., Hongkong Telegraph.]

THE "GLENGARRY" IN A GALE.

The well-known Clenliner Glangarry, Captain Barrow, has recently had a very rough time of It, In the Buy of Bengal, but owing to incomplete files of Indian exchanges we are unable to give a full and circumstantial report of what must the part of the passengers and crew of that to come up: gallant craft. The first intimation of the mishan was published in a Calcutta paper on the 1st in the form of a telegram received there from the Port Officer at Vizagapatam; "The B. I. S. N. Company's steamer Warera passed here at noon with the Glengarry in tow, dismasted and abandoned," The Calculta Englishman of the 3rd, however, contains an account of a presentation made to Captain Negre of the Messageries Maritimes mail steamer Eridan. from which we gather that the Glengarry had a few days previously been dismaited in a cyclone and that the Eridan had come to the rescue of her crew and passengers. The Glengarry being abandoned was, is already stated, pick-d up by the Warors and towed

into Calculta. In making the presentation to Capt. Negre. at a meeting of the Calcutta International Shipmasters' Club, the President in the course of his remarks said :- "It is only within a few days that a fearful cyclone bas visited the Sandheads, and amongst the casualties and, further, she was reported to be so badly mauled that the main pump was broken and all the bests smashed. In this position, with a heavy sea running, the Glengarry was sighted by the French mail steamer Eridan, bound for Calcuits. It would be occupying your time other to lend a hand to save the lives of the able to get clear, and were rafely picked up b British seamen, who then appeared to be, in the launch's crew .- Bangkok Times. imminent danger." Cap'. Barrow also expressed his warm appreciation of the gallantry displayed by the Commander and crew of the Eridan. A silver cup and comm'morative medal were then presented to Capt. Negre. Medals will also be presented to the men who manned the rescuing

LATE TELEGRAMS.

BRAIN SURGERY.

SOME IMPORTANT ADVANCES MADE IN RECENT YEARS:

Dr. W. A. Hammond has an article on the above in a recent number of the North American Review in the course of which he lays it down that there is a form of crantal injury in which surgical aid is especially beneficial and in which by prompt action life may frequent'y be saved. A man falls down an area, for instance, striking his head on the hard surface below. He is stunned for a few minutes and then partially recovers consciousness, which, however, is gradually lost, and profound stuper sets in. such an instance there is probably the rupture of a blood vessel in the membranes of the brain between this organ and the skull, and blood is effered, which, by its pressure on the brain, produces stupor and eventually death. Such cases were until within the iss few years invariably fatal, and even now such is the usual result, for comparatively few surgeons know. what great advances have recently been made in the science and art of brain surgery. Only a few weeks ago a case of the ki occurred in Washington City in which a man was passively allowed to die when in all probability his life could have been saved by an operation. And this operation is a very simple

We ascertain from an inspection of the seate injury on what part of the skull the blow has been received, and we are further strengthened in our search for evidence by the symptoms exhibited by the patient. We trephine the skull at the injured point and let out the blood that has been extravasated. As soon as the pressure is relieved, consciousness is regained and the patient lives. Quite recently operations have been performed | " When I'm lang game, May, and your black upon the skull in cases of idiocy, innate or acquired, with the view of removing a supposed. disproportion between the size of the brain and the skull, and thus allowing the organ space to grow. A French surgeon proposed the removal of strips of the cranium. In cases of idlocy in which the skull was unduly small, and in which. as he supposed there was no room for the brain to expand. Several of his cases and those performed according to his method by other surgeons have been in a measure successful, so that there is decided encouragement to persevere with the operation in instances in which it appears to be suitable. Several years before. the publication of his results the writer had perdeath of Mr. Solomon, one time Inspector of formed similar operations for the cure of Police at Melbourne. It will be remembered epilepsy, and in a few cases with complete

Langlet,

DRUNKENNESS AND CRIMINAL RESPONSIBILITY.

Before and after the execution of the criminal-

Hewlet in Sydney some five years ago, we heard a good deal about the validity of d unkenness as an excuse for crime Then and since, the opinion has been expressed both on and off the bench that, instead of mitigating, drunkenness aggravates any offence from which the culprit would shrink in his sober moments. Though now accepted in British law, the theory that drunkenness is not an excuse for crime not, and never has been, universally endorsed. The Roman law in cases of clime made an allowance for intexication, but the Grecian did not; and in Mi ylene double punishment was responsible positions on board ocean steamers inflicted for crimes committed in drunkenness. The United States practically considers habitual Mr. Hurst has taken a lease of the Oriental drunkenness a disease, and the New York code classifies confirmed drunkards with idiots, lunatics, persons of unstand mind, &c. with the management. It is understood that he Drunkenness may be considered as to criminal will conduct the Hotel in connexion with the intent, but in America a person guilty of a capital Bangkok Recreition and Race-course Society, offence while under the influence of drink is scarcely ever hanged. The question of fact is whether the culprit was in a state of mind to be The recent hot weather has been the cause of criminally guilty. In German, Austrian, Swiss, Italian and Dutch law there is a distinction "leisured " portion of the community have been | made between culpable and inculpable intoxicaonly too glad to make their escape for a few days | tion, but the English law exacts complete to Koh-si-Chang, to the coast, and even to responsibility. > THEY LEAD THEM ALL THE CELEBRATED

CALIFORNIA WINES, from the well-known Vincyards of Messrs. KOHLER AND VAN BERGEN, San Francisco, and JULIAN P. SMITH (Ollvina) Livermore. California:

Guaranteed to be Pure and Unadulterated. Pure BLACKBERRY BRANDY and fresh Consignments of BARTLETT SPRING MINERAL WATER by each Steamer.

Prices forwarded on application to MACONDRAY BROTHERS & LOCKARD Commission Merchants. No. 30, Water Street,

Yokohama, Yokohama, 12th August, 1802.

FOR SALE. HE SCHOONER "MONTIARA," AS SHE NOW LIES IN KOWLOON BAY.

Depth of hold 71 feet. (Owing to recent alterations the carrying capacity of the Monthera has been increased to about 120 tons dead weight.)

The Monttare was built in Singapore, is most solidly constructed of teak throughout, with ironwood eframes, has recently been thoroughly everhauled under experienced European superintendence, and is now in excellent condition. She is a very fast sailer and a most suitable vessel for the Canton kerosene trade, or would make a first-class lighter.

For Particulars as to Price, &c., apply to R. FRASER-SMITH, 6. Pedder's Hill Hongkong, 1st May, 1893.

FOR SALE.

THE ENGINES AND BOILER OF THE CHINESE GUNBOAT "CHOP-CHEUNG," AS THEY LIE AT ABERDEEN DOCKS.

THE Engines of the Chop-cheung were constructed by Messrs. INGLIS & Co., of Wanchai, and are of the Compound Inverted Cylinder Direct-Acting Surface Condensing type, Cylinders 201 and 38" dia., with a stroke of 26." The Crank Shaft Is 64" dia, at the Crank pin and y" dia at the journals. The H.P. Piston Rod is 3" and the L.P. 31" dia. The Piston and Connecting Rod bolts are 2" dia., Air Pump 141" dia, by 13 stroke, Single Acting Circulating Pump 8" dia by 13" stroke, and Double Acting Feed and Blige Pump (one each) 3" dia, by 13'

These Engines have been very little used and MR. SIMON ABRAHAM LEVY has been THIS First-class FAMILY HOTEL in The Boller is of the Horizontal Multimbular type, with three Furnaces and vertical Dome on top. Its dis. is 10ft. 2" by 9ft. 10" long, external measurements; Furnaces, aft. 7" dia.; Dome. 44" dia. by 4st high; Tubes, 184 in number by 3" ex. dia. It is in fairly good condition, having recently undergone considerable repairs, and would last in active service for over five years. The Engines and Boiler can be inspected on application to the Superintendent at Aberdeen

For further particulars, apply to R. FRASER-SMITH, 6, Pedder's Hill. Honokone, 1st May, 1803
